The final AD-6 model was accepted by Navy Bureau of Aeronautics representative pilot Lt. John A. Romano for the U. S. Navy, and was delivered to the Naval Air Test Center, Patuxent River, Md., by NATC Pilot Cdr. L. E. Burke, USN.

A single-place version of the famed "Able-Dog" series, the AD-6 attack bomber was one of 50 model designations and approximately two dozen different configurations produced by the Douglas El Segundo Division during the past 11 years.

Parts for the AD Skyraider are fabricated by the Torrance facility of the El Segundo Division, then assembled into structures by sub-contractors and returned to Torrance for major installation. Final assembly work is done at El Segundo.

In continuous production since its first flight on March 18, 1945, the AD Skyraider has become one of history's most famous propeller-driven aircraft. More than 3000 have been built.

## Retired L.A. Teacher Speaks To GOP Group

"Mind Your Own Business" was the topic of an address before Republicans Unlimited by Miss Lera Baxter last night in the Knights of Columbus hall in Redondo Beach.

Miss Edwards, a retired teacher in the Los Angeles school system, maintained that the many important current issues are the business of each individual citizen. She entered a strong plea against public apathy on measures directly affecting the future of the individual.

The speaker also discussed the new state textbook "America, the Land of Freedom" now being used in the eighth grades of the Los Angeles schools.

According to Mrs. Dorothy Morrison of Palos Verdes, publicity chairman for the South Bay Republicans Unlimited, the organization has presented four American flags to the South Bay Christian School. Other recent activities have included attendance at political rallies and canvassing for Republican votes.
